ABOUT ME

Motivated and detail-oriented React Native Developer with a Bachelor's degree in Software Engineering(2019-2023) and hands-on experience in designing, developing, and deploying mobile applications. Skilled in building user-centric applications, integrating third-party APIs, and utilizing modern development practices. Proficient in working with cross-functional teams and delivering high-quality solutions within deadlines.

WORK EXPERIENCE

React Native Developer – Gujranwala, Pakistan

Software Engineer

I have **2 year** of experience as a **React Native Developer**, during which I have worked on multiple projects that showcase my skills in building dynamic and user-friendly mobile applications. I am actively contributing to ongoing projects and further enhancing my expertise in mobile app development.

React Native Developer

Silicon Nexus | [Lahore, Pakistan] | [Apr(2025)- Present]

- Solely responsible for the frontend development of multiple cross-platform mobile applications, overseeing the complete UI/UX implementation and integration.
- Directly Communication with client regarding to the project flow and dicussion on the daily tasks assigned by PM.
- Working in Agile methodology taking daily sprints with client and PM.
- Collaborated seamlessly with cross-functional teams to deliver high-quality, user-Friendly mobile solutions.
- Demonstrated creative problem-solving skills to address development challenges and ensure smooth project delivery.

React Native Developer

Hixol | Gujranwala, Pakistan | [Dec(2023)- Dec(2024)]

- Worked onsite for 1 year, contributing to the development of multiple cross-platform mobile applications using React Native.
- Played a key role in iOS project development, including creating Test Flight builds and resolving build issues in X-code.
- Collaborated seamlessly with cross-functional teams to deliver high-quality, user-Friendly mobile solutions.
- Leveraged the power of React Native to implement scalable features and optimize application performance.
- Demonstrated creative problem-solving skills to address development challenges and ensure smooth project delivery.

React Native Developer Intern

IT Oasis | [Gujranwala, Pakistan] | [2023]

- Completed a 6-month internship focusing on React Native mobile app development.
- Gained hands-on experience with Redux Toolkit for efficient state management and seamless API integrations.
- Successfully contributed to the delivery of multiple projects, enhancing both technical and problem-solving skills.
- Collaborated with senior developers to implement scalable solutions and adhere to best practices in mobile app development.

EDUCATION AND TRAINING

Bachelor's in Software Engineering

University of Lahore [12/08/2019 – 21/07/2023]

Country: Pakistan

PROJECTS

Professional Projects

Technologies Used:

- **Programming Languages:** JavaScript
- Deploiments on both Android and IOS
- **Frameworks & Libraries:** React Native, Redux Toolkit, RTK Query.
- **Backend Integration:** APIs, Firebase, Sockets.
- **Tools:** OneSignal&Firebase(Push Notifications), Stripe Integration,Sentry, Socail Logins.

Rishta Auntie App (Relationship App)

- Contributed to a mobile application project focusing on API integrations and CRUD operations.
- Developed the onboarding screen for video and picture uploads with Redux Toolkit for state management.
- Implemented OneSignal integration for push notifications on iOS and Android platforms.

KasaStay(Travel & Hospitality / Real Estate Tech) Deployed on both Android/IOS

- There are 3 main roles of this application (Client, Owner, Agent).
- Socail logins Google, Apple, Facebook
- Solely responsible for the **frontend architecture and development**, including **UI/UX design, navigation, and state management**.
- Firebase Push notifications and chat system between owner and client.
- Integrated **interactive maps** for property location and navigation using geolocation services.
- Built reusable components and custom logic to handle **dynamic role-based interfaces**.
- Implemented **real-time data rendering, form validations, and responsive design** for a seamless user experience.

Deliver Cart (E-Commerce App)

- Implemented RTK Query for efficient API data fetching across the application.
- Used Redux Toolkit and Redux Persist to manage the state for cart processes, including checkout and order payments.
- Integrated Stripe for secure payment handling, catering to both guest and logged-in user roles.

Dari App(Services Provider)

- Implemented JSON Data in a Separate file for fetching data for multiple services across the application.
- Integrated the whole UI according to the JSON format just like the API Response.
- Used Redux Toolkit manage the state for cart processes, including checkout.

Chat Application (Self-Project)

- Developed a real-time chat application using Sockets and React Native as a demo project.
- Enabled real-time group communication with functionality for creating and managing chat groups.
- Worked on both the frontend and backend to implement seamless Socket integration..

TECHNICAL SKILLS

Skills:

- **Programming Languages:** JavaScript, TypeScript
- **Frameworks & Libraries:** React Native, Redux Toolkit, RTK Query, React Query.
- **Mobile Development:** Expo, React Native, Firebase(Push Notifications), Chat system, Analytics/Crashlytics, Sentry
- **Version Control:** Git, GitHub, Source Tree.
- **API Integration:** Postman, RESTful APIs, Third-Party Package Integration
- **Third Party Integration:** Stripe Integration, Maps Integration.
